

Why Study With Us?

BIFM Level 4 Workshop in action!

“The Xenon Team is a breath of fresh air. Their experience and genuine interest in your success should fall into the "Money can't buy" category, fortunately you can buy it, and for a very reasonable price.”

Alexandra Barnett, Heineken UK Ltd

Who should I contact?

BIFM Level 5 Students testing their tutor's expertise

“I recognise that Xenon has probably the best results of getting candidates through - and all recognition and praise needs to go to you and your organisation for this. If anyone were to ask me for a centre of excellence to take them - it would be you.”

*David Emanuel, Managing Director,
i-FM.net*

Proven Track Record

With a 100% pass rate on all assessments for the new BIFM qualifications and the notable achievement of being the only tuition provider in the country to date who have successfully guided our students through the full BIFM diploma courses at all levels, we believe our track record speaks for itself. But if you needed any further confirmation, consider the fact that we have successfully been delivering professional FM training and qualifications for nearly a decade, boasting a 93% pass rate for the old BIFM Part 1 and 2 as well as providing tutors for MSc courses in FM. If you're looking for an experienced tuition provider to help you gain an accredited professional qualification, you're in safe hands with us.

Experienced Operational Tutors

At the Xenon Group, all of our tutors are experienced operational and strategic FM's who have been there and done it all. The experience within our teaching staff covers all aspects of FM, from public to private sector, in-house teams to service providers, and from operational FM's to business development and consultancy specialists. We are also proud to be able to count two FBIFM's, two CBIFM's and three tutors with an MSc in FM amongst our number.

What this means is that everything you are taught can be backed up and demonstrated using real-life examples, so you don't just walk away with the textbook answers, you can develop a genuine understanding of how the principles you are taught can be applied in the workplace, making you more effective, more productive and ultimately more valuable.

Unparalleled Support

We genuinely believe that the support we offer our students in achieving their qualifications is second to none. We provide a range of learning support materials, accessed through our website, to consolidate everything you cover in your workshop sessions. We provide on-going support via e-mail, telephone, SKYPE or face-to-face tutorials. All assessments are checked and recommendations made before final submission. As if all that weren't enough, our online forums give you the opportunity to ask fellow students and the FM world at large what their opinions are on any topic that you have covered. With such a wealth of information and support available, you can rest assured that you are ideally placed with the Xenon Group to attain your qualification and achieve your goals.

Flexible Learning

We know how busy the life of a Facilities Manager can be, how hard it can be to fit study around a hectic and often unpredictable schedule. That's why we offer a range of options when it comes to structuring your course. We believe the best way to get the most out of your qualification is to attend our workshop sessions, but if time and budgetary constraints are an obstacle to this, we have developed a bespoke distance learning course for those students who are unable to attend our seminars. We can even provide a combination of workshop and distance learning for those who wish to compromise between the two. Just speak to one of our advisers and we'll put together a package specifically to suit your needs.

Tailor Made Courses

At the Xenon Group, we are proud to have been involved in the creation of the new BIFM Qualifications from an early stage. As such, we have a unique understanding of how the courses work and what message they are attempting to convey. Our courses have been written from scratch, designed specifically with the ILM and BIFM learning outcomes in mind, giving you the peace of mind to know that everything you need to achieve your qualification has been covered and, when faced with each assessment, you are fully armed with the knowledge you need to pass and achieve your goals.

We look forward to welcoming you onto one of our courses.
